Latitude - Style with Attitude

The Latitude shelving system, designed and manufactured in the UK, is set to become a firm favourite with designers and architects.

With the ability to customise components and accessories to fit the clients' needs precisely, this system is cost effective and will bring a touch of finesse to both traditional and contemporary interiors. This stylish but affordable shelving system can be designed with maximum flexibility and is versatile.

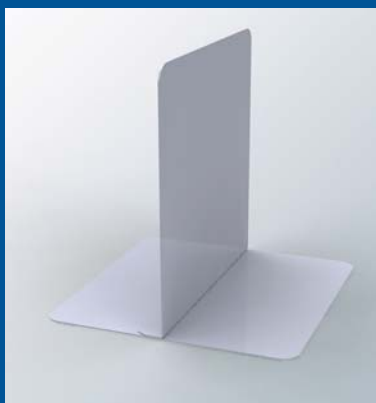

Accessories

Suspended Book Support

Suspended from the shelf above. These supports are adjustable and help to stabilise books, keeping them neat and tidy and upright on the shelf without obstruction.

Magnetic Book Support

A neat alternative where heavier duty supports are required. Available in standard (160mm high) or oversize (220mm high).

Conversion Brackets

These brackets can convert a flat shelf to display without the extra cost of buying a complete new display shelf.

Castor Frame

Adding castors to your shelving is ideal when units need to be moved around the Library. Castors can be locked in place offering extra stability where required.

Bay End Table (1)

Freestanding version at standing height. Provides a cost effective and space saving casual reading position.

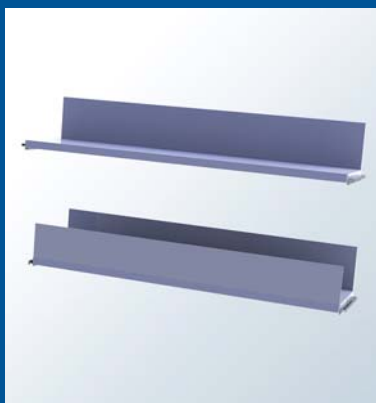

Bay End Table (2)

Shelf supported version at sitting or standing height. Provides a cost effective and space saving casual reading position.

Display / Storage Box

This display unit can be moved around and so offers a flexible storage and display option for journals and periodicals.

Multimedia Shelf

This shelf helps you to easily incorporate a small or medium size collection of multimedia within the Library shelving. The slanted design helps stabilise the media whilst providing a good view and easy access to your DVD, CD or Games Collection.

Goal Posts

Navigate your Library or resource centre with ease. Can be easily and quickly relocated utilising either magnetic or self adhesive fixings. Available in a range of colours and font styles to meet your exact requirements.
