

# libris

library shelving

dedicated to excellence

## Libris Shelving Systems

The Libris shelving system is a wood based shelving system that offers the flexibility of both wooden and metal shelves depending on budget.

### Libris Timber

With wooden shelves, Libris Timber is an all wood shelving system.

### Libris Steel

Where budgets are more restricted, the wooden shelves can be replaced with steel which can result in significant cost savings.

Both Libris Timber and Libris Steel are durable, represent great value for money and are ideal for use in areas where image is important.

Standard finishes include: beech, oak, maple, ash and cherry. Other wood finishes are also available.

## Versatile and Functional

### Sloping Shelves

An excellent option for displaying magazines and promotional materials.

### Optional Slatted Panels

An ideal option for displaying leaflets and new titles.

### Large Format Graphics

With our large format graphics panels it is easy to achieve unique and eye-catching displays either on walls, end panels or co-ordinated across an entire area of your library.

Utilise your own artwork or choose from over 2 million images available.

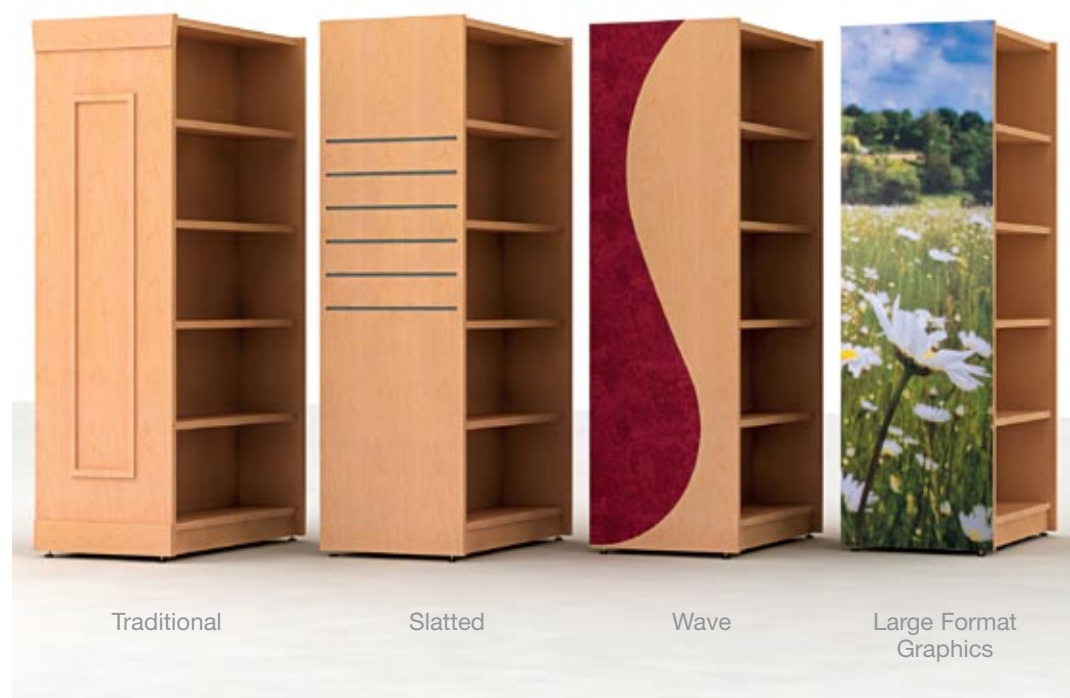

### Secure Storage

Lockable doors are the perfect solution for storing bulky or valuable items within a shelving bay.

## End Panels

A selection of end panel styles are shown below

Traditional

Slatted

Wave
