OASIS
COLLECTION

FREM.CO.UK

Creating an environment designed to work for you the Oasis Collection is split into three categories – Oasis Linear, Oasis Soft and Oasis Architecture.

The range includes pods, booths, hubs and seating – all designed to provide a stylish, flexible, and cost-effective solution for today's ever evolving workspace.

OASIS LINEAR

The Oasis Linear range is designed with straight and bold edges and crafted with acoustically absorbent fabric interior panels.

With hydraulically closing doors that quietly seal behind you, the range provides the ultimate in concentration and acoustic comfort. External options in veneer, laminate and bespoke graphics enable your space to reflect your image.

PHONE BOOTH

Providing a peaceful environment for phone calls, video conferences and a silent retreat for uninterrupted work, the new and improved Oasis Linear Phone Booth is designed with your office in mind.

Equipped with top of the range acoustically absorbent materials, LED lighting and labyrinth air circulation system, the space is practical and private yet comfortable with the option to stand or sit.

Unlike other systems the Phone Booth has no base and stands directly on the floor of your office, ensuring no trip hazard, quick installation and easy relocation.

Desk panel in Oak

Privacy can be difficult to find

in a modern, open plan office.

STUDIO POD

The Oasis Linear Studio Pod provides a peaceful environment for phone calls, video conferences, interviews, private meetings and a silent retreat for uninterrupted work as a single user.

The pod is designed with health and wellbeing in mind, with options including ergonomic adjustable worktop, labyrinth airflow system, reduced light glare for video conferencing and increased acoustic properties with a framed door option.

Equipped with top of the range acoustically absorbent materials, ambient lighting and an air circulation fan, the space is practical yet comfortable. Unlike other systems the Oasis Linear Studio Pod has no base and stands directly on the floor of your office, making it safe, quick to install and easy to relocate.

- Stylish
- Flexible
- Modular
- Cost Effective

DUO POD & TEAM POD

DUO POD & TEAM POD

Space for collaboration or private one-to-ones are always hard to find in a modern, open plan office environment but our Duo and Team Pods are the ideal solution.

Fully enclosed with a full ceiling and a glazed rear wall, the pods stay light, airy and fresh, yet privacy is all yours. With no compromise on comfort, the pods include top of the range acoustically absorbent materials, a LED ceiling light, air circulation and a passive infra-red sensor. As a modular system the pods can be adapted to specifically satisfy your needs. Options include a latch handle door and veneer or laminate exteriors. In addition, technology features such as a 10” touch screen control interface, multimedia options and power units are also available.

Bring your team together

MEETING ROOMS

Oasis Linear Meeting Rooms provide the ideal physical and acoustic privacy solution for the open plan office. Freestanding and easily transferable our meeting rooms are the sustainable cost-effective solution for the ever-changing workplace - functional and flexible.

One of the most advanced internal meeting room pods on the market - the Oasis Linear Meeting Room range is crafted with the highest quality materials available providing top level acoustic privacy along with the latest in tech integration from Frem Group Technology. Lighting, temperature control, air circulation, video conferencing and meeting room booking systems are all available to specify.

Bring your team
together

MEETING ROOMS

TEAM BOOTH

A room for your every need, our Team Booth is completely versatile. It provides the perfect space for small group work, presentations, video conferencing or an informal break out area.

Space for four or more people, the open-fronted booth is enclosed with a full ceiling for privacy and the option to include glazed panels, back-lit fabric panels, fitted workspaces, low back sofas or even coat hooks for that homely feel.

The Team Booth can also be upgraded to include a stylish louvre ceiling. This unique ceiling allows your fire sprinklers to filter through, meaning no additional test requirements are needed.

With further integrated technology features available, the booth works around you and your requirements.

Black desk pedestal with Oak panel top.

A place to suit you

OASIS SOFT

Oasis Soft is an upholstered product range designed to give a softer, homely feel, which provides smart, flexible and adaptable spaces for your every need.

The range has been created with soft lines and curves and crafted with acoustically absorbent panels. It is an ideal environment, versatile for individual and collaborative work as well as informal or formal meetings.
The range incorporates a mix of booths and hubs providing flexible, comfortable and versatile working space.
For group or individual working. Mobile capability and media integration to make the most of your office environment.

HUB & CLUSTERS

The Oasis Soft Hub comprises of low-level open seating spaces available as individual units or clusters, providing multiple occupancy areas in minimal space. The Hub works with your existing open plan feel, whilst the acoustic panels ensure users gain increased privacy.

As a modular system, you can personalise your own space to suit your needs with options to include integrated power and data sources as well as stylish sofa and table options.

Additionally, the space can be fully enabled with integrated technology features including multi-touch display screens and utilisation sensors to accurately record the use of your space.

Enable collaborative working with integrated technology

HUBS & CLUSTERS

FREESTYLE BOOTH

The Oasis Soft Freestyle Booth is styled as a static or mobile booth to suit your environment and your needs. The open sides provide versatility to mirror your open plan environment, or as carriages encouraging impromptu meetings, providing a hop-on, hop-off feel to the space.

The mobile version is easy to move with concealed castors and a simple table lever locking system. Covering a minimal footprint, the mobile booths can quickly come together to form a larger meeting space, which can just as quickly disperse into smaller cluster meetings.

Options include open top, louvre and enclosed ceiling with LED lighting. The mobile booth is also available with its own power pack, which can provide up to 8 hours power for laptop and lighting.

Seating and cushion - Camira Blazer - St Andrews (CUZ86)

Static or mobile

SOCIAL BOOTH

The Oasis Soft Social Booth is a versatile open-fronted booth, available in three distinctive shaped ceiling options; straight, radius or pitch.

This semi-private space is ideal for impromptu meetings or as a group or individual workspace with an optional rear wall allowing for further privacy.

With pendant or LED strip lighting options, freestanding or fixed tables, and power supply available in the seat, table or rear panel the Oasis Soft Social Booth can be configured for your every need.

FREESTYLE BOOTH

DUO & TEAM BOOTH

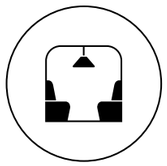
A room within a room, the open-fronted booth has no door allowing this semi-private space to be used for multiple purposes from impromptu meetings to informal breakout sessions.

With its distinctive and functional louvre ceiling design, this unique booth allows your fire sprinklers to filter through, meaning no additional test requirements are needed.

The Oasis Soft Booth options include integrated audio, video and multimedia, along with LED ceiling lighting, allowing you to create the optimum solution for your needs.

Internal panels in Camira Era - Occasion (CSE32)

External panels in Camira Era - Prompt (CSE45)



DUO & TEAM POD

Formal meetings are essential, however at times difficult to bear. The Oasis Soft Pod has features that can create a more comfortable, private experience. From an air circulation fan to a sliding door and glazed panels the pod stays light, airy and fresh.

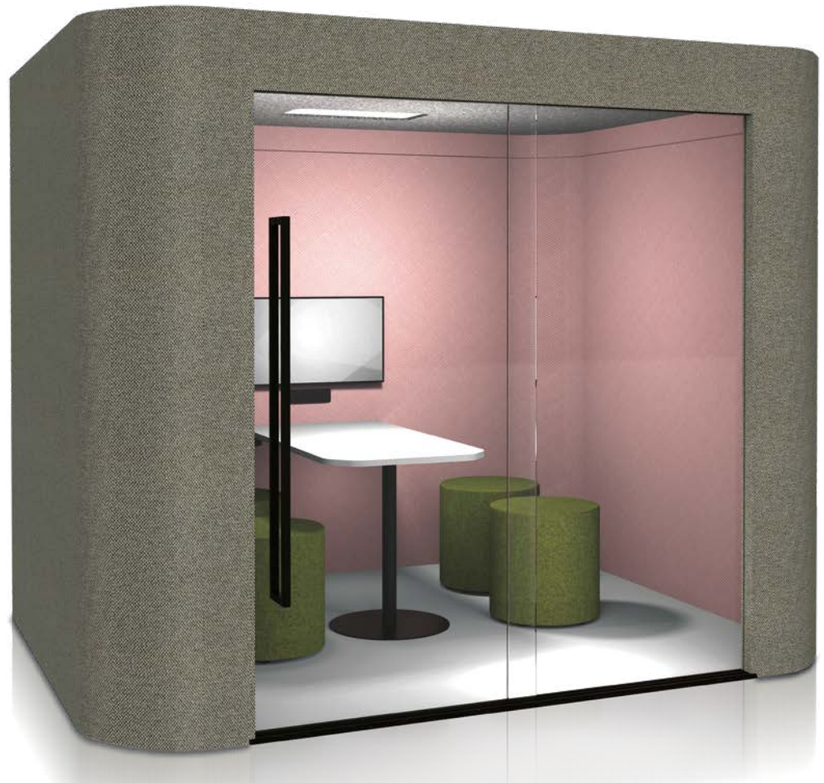
The Oasis Soft Pod is a fully enclosed space for complete privacy.

The pod comes with an option to have a multi-touch surface table and a user interface which monitors lighting, air circulation and allocated time. With further integrated technology features available the pod works around you and your meeting.

Internal panels in Camira Oceanic - Seafarer (OOC16)

External panels in Camira Zap - Splat (ZAP20)

Seating in Camira Blazer - Ulster (CUZ1F)



DUO & TEAM POD

ARCHITECTURE

Canopy is a louvre cantilever ceiling which suspends from the side or rear of the pod or booth. Utilising the outside space by creating an open environment demarking an area for impromptu meetings.

Bridge is a louvre ceiling, cleverly linking two structures, by creating a third usable space. Having the acoustic ceiling with the two fabric external sides, this space is not only comfortable and inviting but acoustically cosseted.

Orbit creates space wherever you want, as it can ‘orbit’ a full 360-degree around the pod or booth. Similar to the canopy, the Orbit utilises outside space, and as it is mobile, areas can be created AS they are needed, WHERE they are needed.

All of our Architecture range is available to be used with both existing or new Oasis pods and booths.
